Traksigns enable you to create instant name plates for the work place. Simply typeset and print the name-slips on your computer, trim to size and slide them into the holders. Traksigns are manufactured from rigid Black or White plastic and come complete with clear, protective face plates. The standard unit is 200mm long and about 45 mm high, longer units can be supplied. Fixing methods for flat surfaces include self adhesive or velcro pads and for partitions, we can provide clear, acrylic hooks.
